

# 概要

## Overview

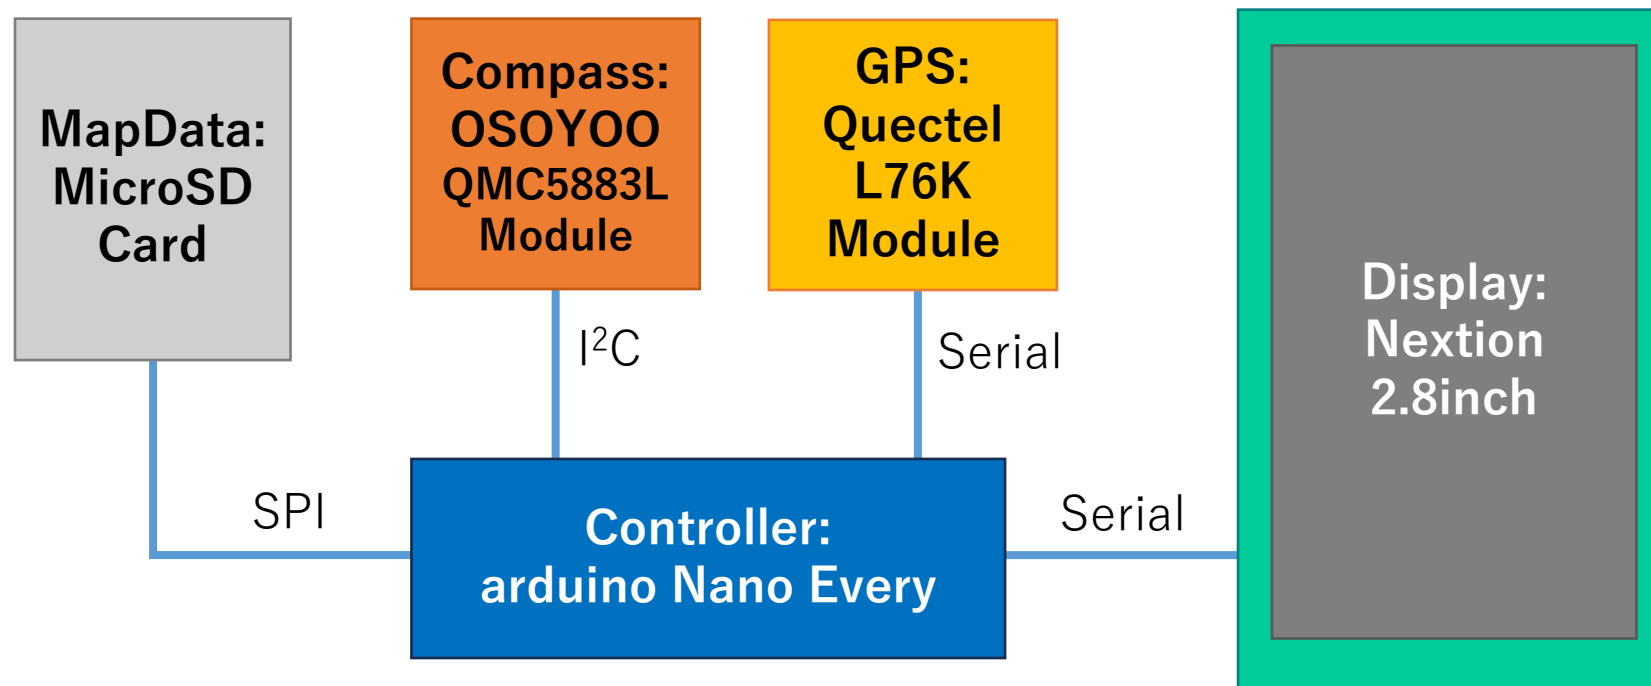

GPSと電子コンパスから得た情報から、登録されている地図データと比較し、距離と方向を測定する。

Getting geometry information from GPS and electric compass, and compare from mapdata to calculate distance and direction.

The main screen displays a golf app interface. At the top, it shows 'Satellite Number' (7) and 'Time' (10:58). Below this is 'Hole information' (HOLE: 12, PAR: 4, GRN:L). The center features a large '238 yards' distance to the pin. Below the distance is a circular compass with a green line indicating the direction to the pin and a red line indicating the current direction. At the bottom, it shows the current 'Position' (latitude 35.665461, longitude 136.96359) and three buttons: MENU, GREEN, and HOLE.

“HOLE”  
button

The GREEN SELECT screen shows a blue header with 'GREEN SELECT'. Below it are two buttons: 'Left' (green) and 'Right' (orange). At the bottom is a 'BACK' button.

“GREEN”  
button

The HOLE SELECT screen shows a blue header with 'HOLE SELECT'. Below it is a yellow button with the number '16' and two orange arrow buttons pointing left and right. At the bottom is an 'OK' button.
